DAY 14 – VERBAL ABILITY & LOGICAL REASONING

Answer Key + Detailed Explanations

QUIZ DETAILS

Duration	8 Minutes
Questions	10
Passing Marks	50%
Focus	Verbal Ability, Logical Reasoning, Critical Thinking & Professional Communication

FINAL ANSWER KEY

Question	Correct Answer
Q1	A)
Q2	C)
Q3	B)
Q4	D)
Q5	B)
Q6	B)
Q7	B)
Q8	B)
Q9	C)
Q10	C)

DETAILED ANSWERS & EXPLANATIONS

Q1. Choose the word that best completes the sentence: The candidate gave a ____ explanation, covering every important point without unnecessary details.

Correct Answer: A) concise

Explanation: "Concise" means brief and clear while containing the necessary information. The candidate covered every important point without unnecessary details, so "concise" is correct.

Q2. If all successful applicants submitted their documents, and Ravi did not submit his documents, what can be concluded based only on these statements?

Correct Answer: C) Ravi cannot be confirmed as a successful applicant.

Explanation: Every successful applicant submitted documents. Ravi did not submit documents, so he cannot be confirmed as successful from the given information. We cannot conclude that he was definitely rejected.

Q3. Choose the sentence that is grammatically correct.

Correct Answer: B) Each of the students has submitted their resume.

Explanation: "Each" is singular and therefore takes the singular verb "has." The other choices incorrectly use "have" with "each."

Q4. Four people P, Q, R and S are standing in a line. P is to the left of Q. R is to the right of Q. S is to the left of P. Who is at the extreme left?

Correct Answer: D) S

Explanation: The relationships give $S \rightarrow P \rightarrow Q \rightarrow R$. Therefore, S is at the extreme left.

Q5. Statement: "The company introduced flexible working hours, and employee satisfaction increased significantly." Which conclusion is most reasonable?

Correct Answer: B) Flexible working hours may have contributed to increased satisfaction.

Explanation: The statement shows the two events occurred together, but does not prove flexible hours were the only cause. "May have contributed" is the most reasonable conclusion.

Q6. Choose the word closest in meaning to "substantiate".

Correct Answer: B) Support with evidence

Explanation: "Substantiate" means to provide evidence or proof supporting a claim or statement.

Q7. Five tasks A, B, C, D and E must be completed in order. A must occur before C. B must occur before D. E must be the last task. Which sequence is possible?

Correct Answer: B) $B \rightarrow D \rightarrow A \rightarrow C \rightarrow E$

Explanation: This sequence satisfies all rules: B is before D, A is before C, and E is last.

Q8. A, B, C and D each have a different role: Developer, Designer, Tester and Analyst. A is not the Developer or Tester. B is the Analyst. C is not the Designer. D is the Tester. What role does A have?

Correct Answer: B) Designer

Explanation: B is Analyst and D is Tester. A cannot be Developer or Tester, so A must be Designer. C takes the remaining Developer role.

Q9. Which response is most appropriate when you disagree with a teammate's idea during a professional discussion?

Correct Answer: C) I see your point. However, could we also consider another approach?

Explanation: This response respectfully acknowledges the teammate and introduces an alternative. It demonstrates professional, constructive disagreement.

Q10. A project team notices that a task repeatedly takes longer than estimated. What is the best analytical response?

Correct Answer: C) Examine previous tasks, identify the cause of the delay, and improve future estimates.

Explanation: Repeated delays should be investigated for their root cause. Reviewing previous work can improve future estimates instead of blaming individuals or repeating the same mistake.
