

# PLACEMENT HUB 2027

## DAY 12 – PLACEMENT TRAINING TEST

Topic:

Analytical Reasoning • Quantitative Aptitude • Verbal Ability • Workplace Decision Making

Duration: 8 Minutes

Total Questions: 10

Total Marks: 100

Marks per Question: 10

Passing Marks: 50

Negative Marking: No

=====

### INSTRUCTIONS

=====

1. There are 10 multiple-choice questions.
2. Each question carries 10 marks.
3. Total time: 8 minutes.
4. Select the best answer for each question.
5. Try to solve independently without using a calculator.
6. Read workplace-scenario questions carefully before answering.
7. The test evaluates both problem-solving ability and decision-making.

=====

### QUESTION PAPER

=====

#### Q1. QUANTITATIVE REASONING – SUCCESSIVE CHANGE

A company's employee count increases by 20% in one year and decreases by 10% the following year. If the original number of employees was 500, what is the employee count after these two changes?

- A) 530
- B) 540
- C) 550
- D) 560

#### Q2. DATA INTERPRETATION

A student spends 40% of their study time on technical skills, 25% on aptitude, 20% on communication, and the remaining time on projects.

If the student studies for 20 hours in a week, how many hours are spent on projects?

- A) 2 hours
- B) 3 hours
- C) 4 hours
- D) 5 hours

### Q3. LOGICAL REASONING – CONDITIONAL THINKING

A company's recruitment process follows these rules:

- Candidates who clear the aptitude test move to the technical round.
- Candidates who clear the technical round move to the HR round.
- Ravi has reached the HR round.

Which statement is necessarily true?

- A) Ravi has cleared the aptitude test.
- B) Ravi has received the job offer.
- C) Ravi has completed the HR round.
- D) Ravi has accepted the job.

### Q4. ANALYTICAL REASONING

Four tasks P, Q, R, and S must be completed.

- P must be completed before Q.
- R must be completed before S.
- Q cannot be the first task.

Which of the following could be a valid order?

- A)  $Q \rightarrow P \rightarrow R \rightarrow S$

B)  $P \rightarrow Q \rightarrow R \rightarrow S$

C)  $R \rightarrow S \rightarrow Q \rightarrow P$

D)  $Q \rightarrow R \rightarrow S \rightarrow P$

#### Q5. PROBABILITY

A box contains 3 red balls, 2 blue balls, and 1 green ball.

One ball is selected at random.

What is the probability that the selected ball is NOT blue?

A)  $1/6$

B)  $1/3$

C)  $2/3$

D)  $5/6$

#### Q6. VERBAL ABILITY – CONTEXTUAL VOCABULARY

The interviewer described the candidate as "adaptable" because she quickly learned a new tool when the project requirements changed.

What does "adaptable" most nearly mean?

A) Able to adjust to new situations

B) Unable to work independently

C) Unwilling to change existing methods

D) Focused only on familiar tasks

#### Q7. CRITICAL THINKING – ROOT CAUSE

A college placement team notices that quiz participation has fallen significantly. Instead of immediately increasing the number of quizzes, the coordinator first asks students why they are not participating.

Why is this approach better?

A) It identifies possible causes before choosing a solution.

B) It guarantees that every student will participate.

C) It eliminates the need for future quizzes.

D) It allows the coordinator to avoid collecting feedback.

#### Q8. WORKPLACE DECISION MAKING

You are working on a group project. One member has not completed their assigned section, and the deadline is tomorrow.

What is the BEST first response?

A) Publicly blame the member for delaying the project.

B) Ignore the incomplete section until the deadline.

C) Contact the member, understand the issue, and create a plan to complete the work.

D) Remove the member from the project immediately.

#### Q9. DATA REASONING

A company receives applications from four departments:

CSE – 120

ECE – 80

EEE – 60

MECH – 40

What percentage of the total applications came from ECE?

A) 20%

B) 25%

C) 27%

D) 30%

#### Q10. PROFESSIONAL COMMUNICATION

You realize that you may not be able to submit your assigned work before the agreed deadline.

Which message is the most professional?

A) "I can't finish it. Do whatever you want."

B) "The deadline is too short, so I won't submit it."

C) "I'm facing an unexpected issue with the task. I'll update you on the progress and propose a revised completion time."

D) "Someone else should complete it because I am busy."

=====

## DAY 12 – ANSWER KEY

=====

Q1 – B

Q2 – B

Q3 – A

Q4 – B

Q5 – C

Q6 – A

Q7 – A

Q8 – C

Q9 – B

Q10 – C

=====

## DETAILED ANSWERS & EXPLANATIONS

=====

### Q1. SUCCESSIVE CHANGE

Correct Answer: B) 540

Original employees = 500

First increase:

$20\% \text{ of } 500 = 100$

New employee count:

$500 + 100 = 600$

Second change is a 10% decrease:

$10\% \text{ of } 600 = 60$

Final employee count:

$600 - 60 = 540$

Therefore:

ANSWER = 540

---

## Q2. DATA INTERPRETATION

Correct Answer: B) 3 hours

Total study time = 20 hours.

Technical skills = 40%

Aptitude = 25%

Communication = 20%

Total percentage:

$$40\% + 25\% + 20\% = 85\%$$

Remaining percentage:

$$100\% - 85\% = 15\%$$

Project time:

$$15\% \text{ of } 20$$

$$= 0.15 \times 20$$

$$= 3 \text{ hours}$$

Therefore:

ANSWER = 3 HOURS

-----

### Q3. CONDITIONAL THINKING

Correct Answer: A) Ravi has cleared the aptitude test.

The recruitment process is:

Aptitude

↓

Technical

↓

HR

Ravi has reached the HR round.

To reach HR, he must have passed the technical round.

To reach the technical round, he must have passed the aptitude round.

Therefore, Ravi necessarily cleared the aptitude test.

However, reaching HR does NOT necessarily mean that he has received or accepted a job offer.

Therefore:

ANSWER = RAVI HAS CLEARED THE APTITUDE TEST

-----

#### Q4. LOGICAL ORDERING

Correct Answer: B)  $P \rightarrow Q \rightarrow R \rightarrow S$

Conditions:

P must come before Q.

R must come before S.

Q cannot be first.

Option A:

$Q \rightarrow P \rightarrow R \rightarrow S$

Q is first.

INVALID.

Option B:

$P \rightarrow Q \rightarrow R \rightarrow S$

P comes before Q.

R comes before S.

Q is not first.

VALID.

Option C:

$R \rightarrow S \rightarrow Q \rightarrow P$

Q comes before P.

INVALID.

Option D:

$Q \rightarrow R \rightarrow S \rightarrow P$

Q is first.

INVALID.

Therefore:

ANSWER =  $P \rightarrow Q \rightarrow R \rightarrow S$

-----

Q5. PROBABILITY

Correct Answer: C)  $\frac{2}{3}$

Total balls:

3 red + 2 blue + 1 green = 6 balls

Blue balls = 2

Non-blue balls:

3 red + 1 green = 4

Probability of selecting a non-blue ball:

$\frac{4}{6}$

Simplifying:

$$4/6 = 2/3$$

Therefore:

ANSWER = 2/3

-----

#### Q6. VOCABULARY

Correct Answer: A) Able to adjust to new situations

"Adaptable" describes someone who can adjust effectively when circumstances, requirements, tools, or environments change.

The candidate learned a new tool when the project requirements changed.

That demonstrates adaptability.

Therefore:

ANSWER = ABLE TO ADJUST TO NEW SITUATIONS

---

## Q7. CRITICAL THINKING

Correct Answer: A) It identifies possible causes before choosing a solution.

The problem is:

Quiz participation ↓

A weak approach would be to immediately increase the number of quizzes.

The better approach is:

Problem

↓

Collect information

↓

Identify possible causes

↓

Choose an appropriate solution

↓

Evaluate the result

The coordinator first asks students why participation has decreased.

This is a root-cause approach.

Therefore:

ANSWER = IT IDENTIFIES POSSIBLE CAUSES BEFORE CHOOSING A SOLUTION

-----

#### Q8. WORKPLACE DECISION MAKING

Correct Answer: C) Contact the member, understand the issue, and create a plan to complete the work.

The goal is to solve the project problem while maintaining professional teamwork.

Option A involves public blame.

Option B ignores the problem.

Option D is an unnecessarily extreme first response.

Option C first identifies the problem and then creates a practical solution.

Therefore:

ANSWER = CONTACT THE MEMBER, UNDERSTAND THE ISSUE, AND CREATE A PLAN

-----

## Q9. DATA REASONING

Correct Answer: B) 25%

Total applications:

$$120 + 80 + 60 + 40 = 300$$

ECE applications = 80

ECE percentage:

$$80/300 \times 100$$

$$= 26.67\%$$

However, this means the provided options do NOT contain the exact answer.

Therefore, this question should NOT be used in the quiz in its current form.

CORRECTED VERSION:

A company receives applications from four departments:

ECE – 75

EEE – 60

MECH – 45

Total:

$$120 + 75 + 60 + 45 = 300$$

ECE:

$$75/300 \times 100 = 25\%$$

Correct Answer:

B) 25%

-----

Q10. PROFESSIONAL COMMUNICATION

Correct Answer: C)

"I'm facing an unexpected issue with the task. I'll update you on the progress and propose a revised completion time."

This response is professional because it:

- Communicates the problem early.
- Does not blame another person.
- Shows responsibility.
- Provides a plan for communication.
- Proposes a realistic next step.

Option A is dismissive.

Option B simply rejects responsibility.

Option D shifts responsibility to someone else.

Therefore:

ANSWER = OPTION C

=====

FINAL DAY 12 ANSWER KEY

=====

Q1 – B – 540

Q2 – B – 3 hours

Q3 – A – Cleared the aptitude test

Q4 – B –  $P \rightarrow Q \rightarrow R \rightarrow S$

Q5 – C –  $\frac{2}{3}$

Q6 – A – Able to adjust to new situations

Q7 – A – Identify causes before choosing a solution

Q8 – C – Understand the issue and create a plan

Q9 – B – 25% (USE THE CORRECTED QUESTION)

Q10 – C – Professional response to a possible delay

=====

## SKILLS TESTED

=====

Q1 → Quantitative Aptitude

Q2 → Data Interpretation

Q3 → Logical/Conditional Reasoning

Q4 → Analytical Reasoning

Q5 → Probability

Q6 → Vocabulary

Q7 → Critical Thinking

Q8 → Workplace Decision Making

Q9 → Data Interpretation

Q10 → Professional Communication

=====

## PLACEMENT HUB – DAY 12

=====

Today's challenge is not only about getting the correct answer.

It is about learning to:

THINK → ANALYZE → DECIDE → COMMUNICATE

In real placement assessments, the ability to understand a problem and choose the best response is just as important as solving a mathematical question.

Keep learning. Keep questioning. Keep building.

PLACEMENT HUB 2027

"Don't chase jobs. Build skills, create value, and opportunities will follow."
