DAY 13 – VERBAL ABILITY & LOGICAL REASONING

Answer Key + Detailed Explanations

Quiz Details

Duration	8 Minutes
Questions	10
Passing Marks	50%
Focus	Verbal Ability, Logical Reasoning, Critical Thinking & Professional Communication

FINAL ANSWER KEY

Question	Answer
Q1	B
Q2	B
Q3	C
Q4	B
Q5	B
Q6	B
Q7	B
Q8	B
Q9	C
Q10	C

DETAILED EXPLANATIONS

Q1. Choose the sentence that best expresses the meaning of: "The proposal was rejected because it was not feasible."

Correct Answer: B

Explanation: "Feasible" means practical or possible to carry out. Therefore, "not practical to implement" is the closest meaning.

Q2. The manager's explanation was so ____ that even a complex technical issue became easy to understand.

Correct Answer: B

Explanation: "Lucid" means clear and easy to understand. The sentence describes an explanation that makes a complex issue easy to understand.

Q3. All employees who completed the training received certificates. Maya did not receive a certificate. What can be logically concluded?

Correct Answer: C

Explanation: If every employee who completed training received a certificate, then someone without a certificate could not have completed the training under the stated rule.

Q4. Choose the grammatically correct sentence.

Correct Answer: B

Explanation: The correct construction is "No sooner had + subject + past participle + than...". Hence, "No sooner had the meeting started than..." is correct.

Q5. Five presentations — P, Q, R, S and T — are scheduled one after another. P must be before R. S must be immediately before T. Which arrangement is possible?

Correct Answer: B

Explanation: $Q \rightarrow P \rightarrow R \rightarrow S \rightarrow T$ satisfies both rules: P is before R, and S is immediately before T.

Q6. A company observes that teams using a documented checklist make fewer deployment errors than teams that do not use one. Which conclusion is best supported?

Correct Answer: B

Explanation: The observation supports the conclusion that checklists may help reduce deployment errors. It does not prove they eliminate all errors.

Q7. Choose the option that best completes the analogy: Blueprint : Building :: Algorithm : ?

Correct Answer: B

Explanation: A blueprint provides a plan for a building; similarly, an algorithm provides a plan or sequence of steps for a program.

Q8. A, B, C and D each have a different role: Developer, Designer, Tester and Analyst. A is not the Developer or Tester. B is the Analyst. C is not the Designer. D is the Tester. What role does A have?

Correct Answer: B

Explanation: B is Analyst and D is Tester. A cannot be Developer or Tester, so A must be Designer. C then takes Developer.

Q9. Choose the sentence with the most appropriate professional tone for an email.

Correct Answer: C

Explanation: This sentence is polite, respectful, and makes a clear professional request without sounding demanding.

Q10. A team has completed a project successfully, but the client requests one additional feature before the final release. What is the most logical first action?

Correct Answer: C

Explanation: The best first step is to understand the new requirement, assess its impact, and estimate the additional work before committing to it.
